PROJECT HIGHLIGHTS

THE PROJECT:

This project will support the development and implementation of a Public Private Partnership (PPP) program as a different modality to attract and infuse private sector investment, efficiencies performance framework and governance systems into the delivery public goods and services.

OBJECTIVE:

To establish a legal and institutional framework and corporate governance model to facilitate private investment in the economy of Trinidad and Tobago through a Public Private Partnership program.

HOW DONOR FUNDS ARE BEING USED:

- Development of technical, legal and institutional capacity process and systems for PPP identification, analysis and structuring;
- To create attractive, well-structured private sector investment opportunities for delivery of infrastructure and related services via PPP modality;
- To increase transparency and governance of public sector procurement and management of PPP contracts.

ACHIEVEMENTS:

2 developed business cases in the health and education sectors that serve as critical input to the structuring of follow up PPP projects. The assessments sought to determine the commercial viability of the two projects and to develop initial business cases to facilitate project implementation up to financial close.
